

Part No. T-0600 Strip Header/Socket Break Tool

FEATURES:

- This break tool allows user to customize header and socket strips to any number of positions, eliminating stocking problems and providing immediate adaptability for any length requirement to any grid or matrix pattern.
- Adjustable stop ensures consistent pin counts for production use.
- Used with Aries' Pin-Line sockets and Strip-Line/Pin-Line headers.

See Data Sheet Nos. 12013 & 12014 for
Pin-Line socket information.
See Data Sheet Nos. 12034 & 12035 for
Strip-Line/Pin-Line header information

Note: Aries specializes in custom design and production. In addition to the standard products shown on this page, special materials, platings, sizes, and configurations can be furnished, depending on quantities. Aries reserves the right to change product specifications without notice.
