

## REACH 191 Compliance Statement

In reference to European CLP Regulation EC No. 1272/2008 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) and the potential presence of Substances of Very High Concern (SVCH), we are providing the following information to our customers.

Aries Electronics, Inc. is fully aware of the REACH regulation and the SVCH list and updates that have been published by the EU. Aries Electronics, Inc. is primarily a supplier of “articles” and does not produce or sell any of the listed substances in their homogeneous form.

We have evaluated our products and, to the best of our knowledge, they do not contain any substances included on the REACH 191 SVCH list in a concentration in excess of specified threshold limits. Our suppliers of materials, parts, and components, have also evaluated and communicated information regarding the presence of SVCH in their products.

In addition, our products do not contain any of the restricted substances, as defined in Article 67 and Annex XVII (including all amendments).

Aries Electronics, Inc. assures its customers that our products are in full compliance with the EU REACH requirement. We review the ECHA website on a continuous basis to obtain the latest information regarding changes or additions to the regulation and/or SVHC list.

We will take the necessary action to provide notification to our customers if any changes occur in our products or any relevant changes are made to the regulation that require further action. Furthermore, we will immediately inform our customers in correspondence to REACH Article 33 if any substance of content in our goods will be classified alarming by the European Agency for Chemicals.

If you have any questions regarding this information, please do not hesitate to contact us.

Sincerely,

A handwritten signature in black ink, appearing to read 'J. Mickey', written in a cursive style.
